About Me

Technology Integration Specialist, design thinking and humanities teacher. An educator passionate about **project-based learning** and the use of technology to spark **students' curiosity**.

Experience

Sant'Anna International School

Technology Integration Specialist and Teacher

JANUARY 2008 - Present, VINHEDO, SP - Brazil

Over these 11 years I have worked with teachers from different school segments to enhance technology integration within the school curriculum, including peer training, instructional design, and preparation for Google certifications. I was also directly responsible for Sant'Anna's certification as one of the 23 Google Reference Schools in Brazil.

In Middle School, I taught Geography, Social Studies, and later implemented Design Thinking as a subject, transforming the old technology course into an engaging real-world problem-solving experience for students.

During my stay at Sant'Anna, I acted as a member of the school improvement committee, NWEA Map and WrAP coordinator, and was part of the leadership team during two successful AdvancED Accreditation visits.

United States Navy

Personnel Specialist Second Class

MAY 2000 - JULY 2006

Leading personnel specialist onboard the USS Klakring (FFG-42) and the Personnel Support Detachment in Kings Bay, GA. During my naval career I served in multiple deployments to various regions of the globe as a leading investigator, flight deck crewman, and master helmsman. I was selected as the Junior Sailor of the Quarter (2002), and Sailor of the Quarter in 2005 while at PSD Kings Bay. During my station in Georgia, the detachment had an overall 98% efficacy in military transactions and a 100% verification in military records in two audits.
